Our efforts are focused on impacting the social determinants of health and well-being that will lead to progress and prosperity for immigrant members of our communities and their families. **Everyone benefits from greater justice and equity.**

Our strength is based in our experience with immigration and the languages and cultures of Latino families in Central Oregon. We address gaps in services and opportunities and advocate for full inclusion of our families. With the help of our clients, supporters and volunteers, we develop strategic partnerships to forge a stronger, more united Central Oregon.
